*Medication Administration requires an additional, in-person observed skill assessment. STAR Services offers [Medication Administration Part II \(Demo\)](#) for an additional fee. A Medication Administration checklist is also offered for the demonstration requirement, which can be completed with a RN or staff who has been deemed competent to document and complete the demonstrated observed skill assessment.

**PSR Core has a length 7.5 hours. Rule 9544 requires that staff obtain a total of 8 hours of training as part of their PSR Core orientation. The omitted 0.5 hour allows the provider time to train their staff in their company-specific EUMR policy and any other company-specific information related to provider responsibilities under the Positive Supports Rule. Please be sure to document on each person's training record the amount of time this additional, company-specific training takes to ensure staff have at least 8 hours of total training time for their PSR Core requirement. An in-person EUMR Holds Demo is required if provider allows restraints.
